

Major Works April 2010

Bracknell Forest Homes, based in Berkshire, owns and manages 5,600 tenanted properties and 1,100 leaseholder properties. There are 38 shared owner properties.

The housing association is delivering a five year £61 million major works programme which includes 3,300 kitchens, 3,500 new bathrooms, 3,600 new heating systems and 1,560 window replacements.

These improvements will enhance the quality of life for local people and will exceed the Government's basic Decent Homes Standard - this is a standard of repair set by Government that all properties must meet.

Please turn over to see map of Bracknell Forest and the major works programme.

Map of Bracknell Forest
